Mandatory Course 2: HR Analytics

Course Type:	SE: Skill Enhancement Course	Course Credits:	4
Course Code:	H3SE508	Course Duration:	60 hours

Course Objective:

- To introduce foundational concepts and methodologies in human resource analytics.
- To equip students with analytical skills for interpreting HR data and metrics for informed decision-making.
- To demonstrate practical applications of predictive analytics in workforce planning and talent management.
- To train students in leveraging analytics tools for performance management and employee engagement.
- To critically assess ethical and privacy concerns associated with HR analytics implementation.

Course Outcomes:

- CO1: Understanding the basics of Analytics and HR Analytics, Relation of HR Analytics with HR strategies, learning different categories of HR Analytics.
- CO2: Applying HR Analytics to facilitate decision making in organizations.
- CO3: Analysing the business environment and use HR Analytics for various HR Functions.
- CO4: Evaluating the impact of HR Analytics in resolving business challenges.
- CO5: Applying analytics in employee performance, employee engagement, employee turnover, assessing diversity
- CO6: Understanding different advanced HR Analytic Techniques, ethical ways to use AI and enhance organization effectiveness.

Unit / Modul e	Content	CO Mapping	Hours Assigned
1	Introduction to Analytics:	CO1	4
	 Evolution of Analytics 		
	 Need for Analytics in Business 		
	 Introduction to HR Analytics and link to 		
	organizational goals		

2	Matrices and Analytics	CO1,	8
	 Terminology of Matrices and Analytics 	CO2	
	 Descriptive Analytics 		
	 Prescriptive Analytics 		
	 Predictive Analytics 		
	 Models in HR Analytics. 		
3	HR Information Systems and Data	CO2,	5
	 Information Sources 	CO1	
	 Analysis software options 		
	 Preparing data: Using SPSS Big Data 		
4	Analysis Strategies	CO2, CO3	6
	 Descriptive reports to predictive analytics 		
	Statistical Significance: Types of data	ΔM	
	 Types of statistical tests: Factor Analysis, 		
	Reliability & Validity Analysis, SEM etc.		
5	Recruitment and Selection Analytics	CO3, CO4	6
	 Reliability and validity of selection process 		
	 Human bias in recruitment and selection 		
	 Predicting Employee Performance 		
	 Indicators of Performance 		
	Methods for Measuring Performance		
6	Predicting Employee Performance	CO3, CO4,	4
	 Indicators of performance: Methods for 	CO ₅	
	measuring performance		
7	Employee Engagement and Workforce	CO4, CO5	4
	Perce <mark>ptions</mark>		
	 Measuring Employee Engagement: 		
	Interrogating the measures		
	 Conceptual Explanation of factor analysis 		
8	Predicting Employee Turnover	CO5, CO4	8
	Relevance of employee turnover as an HR		
	indicator		
	 Descriptive Turnover Analysis: Measuring 		
	and exploring differences between		
		•	

turnover at an individual and team level		
Equality, diversity and inclusion:		
Approaches to measuring and		
managing D&I		
Monitoring the Impact of Interventions	CO3, CO4,	3
 Tracking the impact of various HR 	CO5	
interventions		
Diversity Analytics		4
Equality, diversity and inclusion:		
Approaches to measuring and managing		
D&I		
Advanced HR Analytic Techniques I	CO5, CO6	
Mediation Processes: Moderation and		5
interaction analysis: multi-level linear		
modelling: Curvilinear relationships		
Advanced HR Analytic Techniques II		
Structural Equation Models: Growth		
Models: Lat <mark>ent c</mark> lass analysis: Respon <mark>se</mark>		
surface methodology and polynomial		
regression		
Ethics in Analytics:	CO6	3
Ethical Standards for HR Analytics		
Limitations of AI	-7	
	 Equality, diversity and inclusion: Approaches to measuring and managing D&I Monitoring the Impact of Interventions Tracking the impact of various HR interventions Diversity Analytics Equality, diversity and inclusion: Approaches to measuring and managing D&I Advanced HR Analytic Techniques I Mediation Processes: Moderation and interaction analysis: multi-level linear modelling: Curvilinear relationships Advanced HR Analytic Techniques II Structural Equation Models: Growth Models: Latent class analysis: Response surface methodology and polynomial regression Ethics in Analytics: Ethical Standards for HR Analytics 	 Equality, diversity and inclusion: Approaches to measuring and managing D&I Monitoring the Impact of Interventions Tracking the impact of various HR interventions Diversity Analytics Equality, diversity and inclusion: Approaches to measuring and managing D&I Advanced HR Analytic Techniques I Mediation Processes: Moderation and interaction analysis: multi-level linear modelling: Curvilinear relationships Advanced HR Analytic Techniques II Structural Equation Models: Growth Models: Latent class analysis: Response surface methodology and polynomial regression Ethics in Analytics: CO6
